Global Summit on

# PRODUCTIVITY IN THE AGE OF AI

20–21 AUGUST 2025 | LE MÉRIDIEN | NEW DELHI | INDIA

MAXIMIZING PRODUCTIVITY WITH AI FOR A

IKSIT BHARAT

**PARTNERSHIP OPPORTUNITIES**

INTERNATIONAL

THE GENESIS

As artificial intelligence (AI) and Industry 4.0 technologies transform the way we live, work, and innovate, it is essential to reimagine productivity tools and systems across industries and services. These advancements bring unprecedented opportunities to enhance efficiency, environmental sustainability and economic growth.

AI is reshaping daily life by fostering innovation, optimizing supply chains, and reducing operational costs. However, this transformation also calls for robust industry-academia partnerships to drive continuous innovation and develop a skilled workforce to thrive in the AI era.

The Global Summit on Productivity in the Age of AI offers a collaborative platform to explore challenges, identify growth pathways and foster sustainable productivity improvements. Experts from policy, academia, industry and civil society will come together to discuss AI's potential in shaping a greener, more inclusive and prosperous future.

MAXIMIZING PRODUCTIVITY WITH AI FOR A

IKSIT BHARAT

THE SUMMIT

The Global Summit on Productivity in the Age of AI will spotlight AI's transformative potential across economic sectors. Discussions will address productivity challenges, explore strategies for sustainable growth and promote frameworks for Net Zero compliance and employability.

With a projected global AI market size of USD 2,575.16 billion by 2032 and India's AI market growing at 25-35% CAGR, the Summit will bring together leaders from government, industry and academia to outline actionable pathways for growth, sustainability and innovation.

AIM

The Summit will address AI's role in productivity enhancement, focusing on challenges and opportunities to build a green, prosperous and sustainable future.

OBJECTIVES

The Summit will provide a platform to:

⊕ Explore emerging trends in productivity science and technology.
⊕ Integrate AI for sustainable productivity growth.
⊕ Promote global and national cooperation in science and technology.

⊕ Identify AI-driven solutions for circular economy and Net Zero goals.
⊕ Encourage ethical and responsible AI use to achieve sustainable development objectives.
⊕ Drive importance of capacity building for an AI-driven workforce.

WHO SHOULD EXHIBIT

The Summit is a premier platform to showcase AI-driven innovations and next-gen technologies. Key technologies include:

⊕ Adaptive AI, Machine Learning, Robotics and Generative AI
⊕ Cloud Computing, Edge Computing, Blockchain and Big Data
⊕ AR/VR, Drones and Cybersecurity Solutions
⊕ SaaS, and Hardware as a Service (HaaS)
⊕ Ministries, Industry Trade Bodies & Associations and more.

WHO WILL YOU MEET?

⊕ **Executives and Decision-Makers:** CEOs, CTOs, and CIOs shaping AI strategies.
⊕ **Visionary Leaders:** Policymakers and C-level executives driving innovation.
⊕ **Technical Experts:** Innovators across healthcare, finance and technology.
⊕ **Investors:** Venture capitalists and funders advancing AI development.
